

31st Charter Day Committee
 Activity Design

Activity : DAVAO DEL NORTE STATE COLLEGE’S 31st CHARTER DAY CELEBRATION
 Theme : “Forging Sustainable Futures: DNSC at 31”
 Dates : February 10-13, 2026 (Wednesday to Friday) February 7,8, 9- Day 0 for Students’ Activities
 Participants : All DNSC Faculty, Staff, Students, Alumni and Stakeholders
 Rationale :

Davao del Norte State College (DNSC) has a rich history, originating as the Davao Regional Institute of Fisheries Technology (DRIFT). On February 14, 1995, it was officially converted into DNSC under Republic Act 7879. This significant transformation is celebrated annually on February 14, coinciding with "Heart's Day," to honor the visionaries and contributors who have propelled the College to its current stature.

The theme “Forging Sustainable Futures: DNSC at 31” powerfully encapsulates the institution’s journey and its forward-looking mission. As DNSC celebrates this milestone, the theme deliberately pivots from merely commemorating the past to actively constructing a legacy of environmental stewardship, social responsibility, and economic resilience. It reflects the College’s commitment to integrating sustainability into its core functions, the instruction, research, extension, and production, ensuring that its growth and development contribute positively to both community and planet for generations to come. This year’s charter day is not just a celebration, but a recommitment to being a catalyst for enduring and meaningful change.

Objectives:

The activity aims to:

- 1. **celebrate DNSC's legacy and transformative growth** by showcasing its evolution from DRIFT to a multidisciplinary State College, honoring the contributions of past and present administrators, faculty, staff, students, and community partners in achieving 31 years of academic and developmental excellence.
- 2. **champion and integrate sustainability across the DNSC community** by launching new initiatives, highlighting existing green practices, and inspiring collective action towards environmental and energy conservation, sustainable livelihoods, and responsible resource management through exhibits, and pledge campaign; and
- 3. **foster a forward-looking and innovative mindset** among students, faculty, and staff thereby strengthening DNSC’s role in preparing leaders and solutions for a sustainable future.
