

Zoom Meeting Rules:

Display Agency and Name

For proper identification of agencies, please rename yourself following the format: Agency - Name Full Name

Example: DRO II - Juan dela Cruz

Audio and Video

All participants are muted upon entry. **STAY ON MUTE** unless you wish to speak, and as a courtesy, **TURN your VIDEOS ON** while speaking. The use of virtual background is also encouraged.

Be Engaged in the Discussion

Participate **ACTIVELY** during the discussion. Use the **CHAT FUNCTION** as alternative to speaking. You may also use the **RAISE HAND FUNCTION** for proper queueing of participants who wish to speak.

REPUBLIC OF THE PHILIPPINES
DEPARTMENT OF ECONOMY, PLANNING, AND DEVELOPMENT

Orientation Workshop for the 2026 Innovation Grants

14 April 2026

INNOVATION STAFF
Innovation Fund Management Division

NATIONAL
INNOVATION
COUNCIL

Presentation Outline

- A. Implementing Guidelines (DEPDev MC No.01, s.2026)**
- B. Electronic Innovation Grants Information System**
- C. Elements of Good Project Design**
- D. Timeline of Activities**

SALIENT FEATURES OF THE IMPLEMENTING GUIDELINES ON THE 2026 INNOVATION GRANTS

DEPDev Memorandum Circular No. 01, s. 2026

Rules and regulations for the utilization of funds appropriated for grants supporting innovative programs, activities, and projects (PAPs), pursuant to SP No. 5, DEPDDev-OSEC, under the FY 2026 GAA.

Provides the types of innovation PAPs and outlines the organizational structure, responsibilities, eligibility criteria, and the administration processes of the 2026 Innovation Grants.

Eligible Entities

IMPLEMENTING GUIDELINES ON THE 2026 INNOVATION GRANTS

National Government Agencies

- *Central Office*
- *Attached Agencies or Operating Units*
- *Regional, Provincial, or Field Offices*
- *DepEd Schools*
- *DOST Philippine Science High Schools*

Local Government Units

- *Provincial Government*
- *City or Municipal Government*
- *Local Universities or Colleges*

State Universities and Colleges

- *State Universities*
- *State Colleges*

Government-Owned or -Controlled Corporations

- *Central Office*
- *Regional Offices*
- *Provincial or Field Offices*

For the **Program/Project Proposal**:

-  Alignment and contributory to the goals outlined in the National Innovation Agenda and Strategy Document (NIASD), the Philippine Development Plan (PDP), and the Regional Development Plan (RDP) for those with regional/local in scope.
-  No duplication with completed or ongoing publicly funded innovation PAPs.

For the **Implementing Entity**:

-  Must be an NGA, SUC, public school, GOCC, or LGU incl. LUC.
-  Must be able to issue an electronic Official Receipt (OR)/electronic OR, and Acknowledgement Receipt for the receipt of funds under the agency's name.
-  Authorized to receive funds and/or collect revenues.
-  For SUCs, GOCCs, and LGUs: must have an authorized trust fund account to serve as the depository account for the grants.

For the **Implementing Entity**:

-  For NGAs and public schools: Must have an organization code based on the Unified Account Code Structure and an existing Modified Disbursement System trust account.
-  For those who received NIC funding under the 2022 to 2025 Innovation Grants: Must be cleared of all physical and financial accountabilities from previously completed projects.
-  For those with an identified private enterprise or partner: Must ensure that the private enterprise or partner's incorporators, organizers, directors, or officers are not agents of, or related by consanguinity or affinity up to the fourth civil degree, to the implementing entity officials and project team members.

For the **Program/Project Leader**:

-  Filipino citizen of legal age.
-  With permanent or regular position and not due to retire during the period of implementation.
-  Not found guilty of administrative or criminal case, including those under appeal.
-  Not an agent of or related by consanguinity/ affinity to the fourth civil degree to DEPDDev personnel authorized to process/ approve the proposal, MOA and the release of funds.

Types of Innovation PAPs (Annex B)

IMPLEMENTING GUIDELINES ON THE
2026 INNOVATION GRANTS

Pre-commercialization, Commercialization, or Diffusion Projects

- Developing and refining innovative products, technologies, or service to make them market ready
- Support to the commercial production and transfer of such innovations across markets, and their dissemination and adoption within target markets or communities
- **For proposals under commercialization - with private enterprise or partner**

Innovation Facilities and Services

- Physical spaces, resources, and support programs designed to foster innovation, particularly by providing support services for entrepreneurial activities to enable the successful transfer of innovation across markets

Innovation Culture Promotion and Capacity-Building

- Fostering a culture of innovation and strengthening the innovation ecosystem, which includes educational programs, capacity-building activities, trade exhibits, expositions and missions, and other networking activities for collaborative partnerships

Innovation Policy and Administration

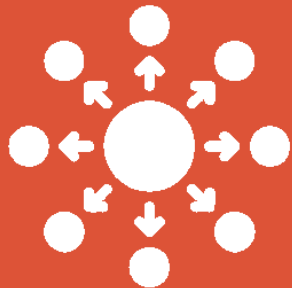

- Introduction and application of innovation policy solutions, regulatory measures, digital transformation initiatives, and other public administration innovations
- These PAPs aim to enhance efficiency, productivity, and quality of public services

Types of Innovation PAPs

IMPLEMENTING GUIDELINES ON THE
2026 INNOVATION GRANTS

Pre-commercialization, Commercialization, or Diffusion of Innovations

1) Pre-commercialization

- a. High fidelity prototyping of product, technology, or service
- b. Conduct of market research and assessments

2) Commercialization

- a. Production and manufacturing
- b. Marketing and sales
- c. Supply chain establishment
- d. Compliance to legal and regulatory requirements

3) Diffusion/Adoption

- a. Conduct of evaluations within testbed environments
- b. Participation to regulatory sandbox program
- c. Small-scale pilot deployment of product or service
- d. Conduct of technology transfer activities

Types of Innovation PAPs

IMPLEMENTING GUIDELINES ON THE
2026 INNOVATION GRANTS

Innovation Facilities and Services

1) Physical Facilities and Resources

- a. Lease of commercial, co-working, or physical/virtual office space
- b. Refurbishment and enhancement of office, co-working, or commercial space
- c. Overhead cost

2) Support Services and Programs

- a. Shared business services
- b. Incubation support

Types of Innovation PAPs

IMPLEMENTING GUIDELINES ON THE
2026 INNOVATION GRANTS

Innovation Culture Promotion and Capacity-Building

1) Educational Programs and Capacity-Building

- a. Workshops or trainings
- b. Incubator or accelerator programs
- c. Conduct of hackathons, innovation challenges, or ideation sessions

2) Trade Exhibits, Expositions, and Missions

- a. Participation in innovation-related conferences or conventions
- b. Participation in trade exhibits and expositions
- c. Participation in trade missions or business matching meetings

Types of Innovation PAPs

IMPLEMENTING GUIDELINES ON THE
2026 INNOVATION GRANTS

Innovation Policy and Administration

1) Conduct of regulatory sandbox program

- a. Feasibility assessment and development of an implementation plan for establishing a regulatory sandbox program
- b. Policy recommendation, guidelines, and/or issuances for establishing a regulatory sandbox
- c. Regulatory sandbox handbook or operations manual for capacity building of regulators
- d. Documentation of performance and compliance with regulatory requirements of the participants
- e. Monitoring and evaluation of the implementation of the regulatory sandbox

2) Digital Service Platforms and Transformation Initiatives

- a. Active and accessible web platform, portal or mobile applications
- b. Procurement of and/or subscription to software licenses, access to online platforms, domain hosting, user interface and user experience design services, security certification, etc.
- c. Capacity building on the creation, operation, and securing of digital service platforms, with a focus on cybersecurity
- d. Utilization, application or deployment of Internet of Things systems
- e. Reports of service optimization activities and policy recommendations
- f. Creation of artificial intelligence (AI) enabled service delivery systems
- g. Utilization of cloud-enabled infrastructure

Funding Threshold

IMPLEMENTING GUIDELINES ON THE 2026 INNOVATION GRANTS

Type of Innovation PAP	Funding Threshold
Pre-commercialization, Commercialization, or Diffusion of Innovation	Not exceeding PhP7.5 million
Innovation Facilities and Services	Not exceeding PhP7.5 million
Innovation Culture Promotion and Capacity-Building	Not exceeding PhP5 million
Innovation Policy and Administration	Not exceeding PhP7.5 million

- **Double funding* is prohibited.** Proponents shall ensure that any components of their proposed program, activity, or project have not received funding from the FY 2026 GAA or any other sources involving public funds.
- Any proposal that includes any form of investment, such as, but not limited to money market placements, time deposits, real property and motor vehicle purchases, or any other financial investments, will not be permitted and may be grounds for disapproval.

***Double funding** - a situation where the same activity for the same set of beneficiaries receives funding more than once using public funds.

Negative List

- Any forms of investment (e.g. money market placements, time deposit, real property and motor vehicle etc.);
- Provision of monetary or non-monetary prizes, awards, and seed capital;
- Provision of mandatory health and social welfare services;
- Provision of mandatory water supply and sanitation services;
- General construction and public works, including retrofitting and rehabilitation of facilities managed by implementing agencies as part of their regular programs and mandates;
- Standalone computerization or installation of IT and telecommunications equipment or activities that form part of agencies regular ICT operations;
- Conduct of research studies and support for ongoing theses or dissertations or other investigatory projects involving experimental procedures to acquire new knowledge or apply new findings;

Negative List

- Conduct of livelihood training programs typically provided by other government agencies or LGUs;
- Tourism promotion activities, unless they introduce an innovation in the form of product, system, service that does not fall under the regular tourism promotion PAPs;
- Feasibility studies for infrastructure PAPs, including standalone preparatory activities, resettlement, right-of-way acquisitions, site development activities, and similar undertakings;
- Foreign travel activities;
- Subsidiaries or payments for ongoing operational expenses of the proponent that are not directly tied to the program or project; and
- Provision of services that do not fall under the mandate of the proponent.

Endorsement/Authorization Letter

IMPLEMENTING GUIDELINES ON THE
2026 INNOVATION GRANTS

Proponent	Level	Signatory
NGA	Department Central Office	Secretary or designated Undersecretary
	Attached Agency or Operating Unit of a Department	Undersecretary or its equivalent
	Regional, Provincial, or Field Offices	Regional Director
LGU including LUC	Provincial Government	Governor
	City or Municipal Government	Mayor
	Local University or College	President, Chancellor, or Vice Chancellor for Research or Extension
SUC	State University or College	President, Chancellor, or Vice Chancellor for Research or Extension
Public School	Department of Education schools	Schools Division Superintendent
	Department of Science and Technology Philippine Science High School	Executive Director or Campus Director
GOCC	Central Office	Head of Agency or Department Manager
	Regional, Provincial, or Field Offices	Regional Director, Regional Manager, or its equivalent

Criteria	Weight	Description
Strategic Alignment	10%	The proposal demonstrates alignment with the strategic priorities outlined in the Philippine Innovation Act and the NIASD. Furthermore, it is aligned with the goals and objectives outlined in the PDP, RDPs (if applicable), and SDG
Innovativeness	40%	The proposal includes a clear description of the new product, service, approach, or technology being proposed. It also explains how the proposed innovation differs from existing solutions in the same field or market and demonstrates its potential impact. The proposal also identifies and addresses specific problems or challenges within the designated areas of implementation or utilization, whether at the national, regional, or local level. This ensures that the innovation effectively meets the needs and expectations of its users, beneficiaries, and other relevant stakeholders.

[Outline](#)

Technical Evaluation Criteria (Annex C)

Criteria	Weight	Description
Socioeconomic and Environmental Impact	20%	The proposal is transformative and can produce positive socioeconomic and environmental outcomes for the specified target beneficiaries. It aims to contribute to inclusive growth, sustainability, and the well-being of the community.
Feasibility, Sustainability, and Scalability	30%	The proposal demonstrates feasibility with a clear and realistic plan for implementation within the proposed timeline and budget. It also outlines a sustainability plan to ensure continuity of activities beyond the initial funding support. For pre-commercialization, commercialization, adoption/diffusion PAPs, the proposal should have a clear plan for scaling up, encompassing investment plans, partnerships, and resource mobilization.
TOTAL		100%

ELECTRONIC INNOVATION GRANTS INFORMATION SYSTEM (EIGIS)

Step 1: Creation of EIGIS User Account

1. Download and complete the prescribed [Authorization Form](#) template with all necessary details. Only the designated Project Leader is authorized to create an EIGIS user account.
2. Obtain approval from the Head of Agency.
3. After securing the signed Authorization Form, register at EIGIS through this link <https://eigis-innovation.depdev.gov.ph/register> using the same email and details provided in the form.
4. If there are discrepancies between the data indicated in the signed form and the data encoded in the EIGIS Registration Page, approval will be deferred until the data is corrected.

Step 2: Drafting and Submission of Proposals

1. Go to **Create Proposal** in EIGIS. Fill out all required information in Forms 1, 2 and 3.
2. It is highly recommended to prepare and save a local file with all the data to be encoded in EIGIS. This will make encoding easier and help prevent data loss in case of technical issues. Editable local files of the forms can be accessed and downloaded in the EIGIS list of resources .
3. Ensure that all necessary and accurate information is provided on the Declaration and Undertaking pages.
4. Click **Save as Draft** if you are not ready to submit yet.
5. Ensure that you submit all filled-out forms and attach required documents on or before the deadline.
6. Click **Submit as Final** to submit your proposal. A confirmation email will be sent upon receipt. Once the proposal is submitted as final, no further changes, revisions, or sending/uploading of supporting documents will be allowed, even if the deadline has not yet passed.

Step 3: Tracking the Status of Proposal

1. Go to **Track** in EIGIS user account for updates on the status of your proposal submission.
2. All qualified proposals will undergo the evaluation process as outlined in Section IX Item B, and [Annex B of DEPDev Memorandum Circular \(MC\) No. 01, s. 2026.](#)
3. Proponents of shortlisted proposals may be invited to discuss their proposals during the deliberation of the NIC Executive Technical Board.
4. Official results will be sent to all email addresses indicated in the submitted Form 1.

Use of Guided Diagnostics Feature

This feature is a **user-centered** design approach to improve the quality and readiness of proposals. It incorporates guided diagnostics that lead proponents through a structured process of defining their projects.

EIGIS Enhancement

3.3 Types of Innovation Program, Activity, and Project (PAP) ? * (Please refer to this Annex B Types of Innovation Programs, Activities, and Projects)	☐ Pre-commercialization, Commercialization, or Diffusion of Innovations ? ☐ Innovation Facilities and Services ? ☐ Innovation Culture Promotion and Capacity-Building ? ☐ Innovation Policy and Administration ?	☐ Pre-commercialization, Commercialization, or Diffusion of Innovations ☐ Innovation Facilities and Services ☐ Innovation Culture Promotion and Capacity-Building ☐ Innovation Policy and Administration ☐ Not Applicable
	Primary Typology	Secondary Typology

Typology 1

3.3 Types of Innovation Program, Activity, and Project (PAP) ? *

(Please refer to this [Annex B](#) Types of Innovation Programs, Activities, and Projects)

☒ Pre-commercialization, Commercialization, or Diffusion of Innovations

Has every key component of your innovation been integrated and validated in a laboratory setting (beyond idea generation, literature review, or analytical proof-of-concept only), such that it is at or beyond TRL 4?

☒ Yes

☐ No

☒ Pre-Commercialization

1. Do you develop high-fidelity product/service prototypes, performance/quality testing, design refinement, pilot production runs, technical validation, or IP filing this cycle?

☒ Yes

☐ No

2. Are you doing market research, surveys, user testing for product-market fit, or business plan formulation?

☒ Yes

☐ No

☐ Commercialization

1. Is funding mainly for production/manufacturing (materials, equipment/tools, intermediate/finished goods, packaging, storage, production documentation, cost optimization)?

☐ Yes

☐ No

The diagnostics help applicants correctly categorize their innovation, assess their level of implementation readiness, and clarify expected outputs and beneficiaries.

Typology 2

3.3 Types of Innovation Program, Activity, and Project (PAP) ? *

(Please refer to this [Annex B Types of Innovation Programs, Activities, and Projects](#))

☒ Innovation Facilities and Services ?

Is the primary purpose of this proposal to establish, upgrade, or operate shared innovation facilities or services that multiple innovators, MSMEs, or R&D actors can use (e.g., innovation spaces, labs, FabLabs, coworking or shared service facilities, TBIs, accelerators)?

☒ Yes

☐ No

☐ Physical Facilities and Resources

1. Does the proposal mainly fund the lease or rental of commercial, co working, physical, or virtual office / innovation space (including FabLabs, labs, coworking spaces, business or science parks, SSFs, TBIs, accelerators)?

☐ Yes

☐ No

2. Does it cover refurbishment, renovation, or fit out of spaces (layout redesign, construction, fixtures, furniture, safety and building code compliance) for innovation use?

☐ Yes

☐ No

3. Does it primarily pay for overhead and operating costs of these facilities (utilities, consumables, software licenses, maintenance and repair, administrative or support staff)?

☐ Yes

☐ No

Typology 3

3.3 Types of Innovation Program, Activity, and Project (PAP) ? *

(Please refer to this [Annex B Types of Innovation Programs, Activities, and Projects](#))

☐ Innovation Culture Promotion and Capacity-Building ?

Does the proposal mainly fund activities to build skills, knowledge, or networks for innovators, MSMEs, or the public through structured learning (workshops/trainings) or trade participation (conferences/exhibits/missions), rather than physical infrastructure, product development, or policy design?

☒ Yes

☐ No

☒ Educational Programs and Capacity-Building

1. Is the proposal for workshops, trainings, or structured programs with facilitators, curricula, participant lists, and after activity reports (e.g., skills development, innovation curriculum)?

☒ Yes

☐ No

2. Does it fund incubator/accelerator programs (selection process, customized modules, mentorship/coaching, demo days, graduation/alumni support)?

☐ Yes

☐ No

3. Is it for hackathons, innovation challenges, or ideation sessions (recruitment, mentoring/pitching, judging criteria, after activity reports)?

☐ Yes

☐ No

EIGIS Enhancement

Typology 4

- ☒ Innovation Policy and Administration ?
- Is the proposal mainly for government regulators or agencies to develop policy frameworks/regulatory sandboxes or to build/transform digital public service platforms (web/portals/mobile apps, software/cloud, capacity building, AI/IoT/cloud systems), rather than private innovation projects, facilities, or public events?
- ☒ Yes
☐ No
- ☒ Public Policy
1. Does it fund regulatory sandbox programs (feasibility assessment, implementation plan, policy/guidelines/issuances, handbook/manual, performance/compliance monitoring)?
- ☒ Yes
☐ No
- ☐ Public Administration
1. Does it create/upgrade active web platforms, portals, or mobile apps (new build, UI/UX upgrade, functionality/security/database/cloud migration)?
- ☐ Yes
☐ No

3.3 Types of Innovation Program, Activity, and Project (PAP) ? *

(Please refer to this [Annex B Types of Innovation Programs, Activities, and Projects](#))

Consultancy Services

Legal Services

Other Professional Services

MOOE - Taxes, Insurance Premiums and Other Fees

Taxes, Duties and Licenses

MOOE - Other Maintenance and Operating Expenses

Financial Targets						
Activity/Physical Accomplishment	Funding Requirement					Action
	Line-Item Expense 	Item/s Description 	Estimated Cost			
			Unit Estimate	Qty	Sub-Total	
1.1	1.1 </					

The system also strengthens the linkage between project design and financial planning by requiring proponents to align activities with specific deliverables and corresponding line-item expenses in the Work and Financial Plan (WFP).

ELEMENTS OF A GOOD PROJECT PROPOSAL

Project Profile

Project - a specific, time-bound effort with defined outputs, activities, and accountabilities.

Project Title

- Clearly state the project title in a short, descriptive, and action oriented manner.
- Use specific terms rather than general ones. Instead of “Improve community skills”, use “Train 100 small-vessel operators on maritime safety and emergency response”
- Keep it concise (5–12 words ideally).
- Reflect scope or target group if possible (e.g., youth, fisherfolk, coastal communities).
- Be creative!

Organizational Outcome

- An organizational outcome refers to the **specific results or goals** that a project aims to achieve within the organization, describing how the project aligns with and contributes to **NIASD's broader mission and strategic objectives**.
- Show alignment to both national and regional goals (**Philippine Development Plan 2023-2028, Regional Development Plan**) and responsiveness to **Philippine Innovation Act**
- Identify relevant **SDGs** (e.g., SDG 14 – Life Below Water, SDG 5 – Gender Equality, SDG 11 – Sustainable Cities and Communities).
- Use **explicit statements** like “This project strengthens PMMA’s mission to produce socially responsible maritime professionals while addressing coastal safety and disaster resilience.”
- Highlight **collaboration with institutional partners** such as private entities and other community organizations.

Organizational Outcome

Example:

“This project contributes to PMMA’s strategic objective of producing competent maritime professionals by implementing annual maritime safety training for coastal communities. It supports the Philippine Development Plan and NIASD by building resilient maritime communities, and aligns with SDG 14 (Life Below Water) by promoting sustainable fishing practices and SDG 5 (Gender Equality) by ensuring women participate in all training session”

Project Objectives

Each Project Profile must contain at least one well-formulated Project Objective that is **Specific, Measurable, Achievable, Relevant, and Time-Bound.**

The Project Objective states what the initiative intends to accomplish by a particular timeframe, in a way that can be monitored and evaluated.

Formulation Pattern:

**"To [action verb] [what] for [who/where] by [when],
in order to [higher-level rationale]. "**

Project Objectives

Examples:

- “By December 2026, train 100 small-vessel operators in Bataan on maritime safety and emergency response, with at least 30% female participation.”
- “Conduct 5 community workshops on sustainable coastal livelihoods targeting 150 beneficiaries by June 2027.”

Project Description

The Project Description is the narrative "story" of how the Project will be implemented, for whom, and with what arrangements for monitoring/evaluation and risk management.

Beneficiaries	Who will benefit? Identify the groups and their characteristics
Components	What are the main workstreams or phases? List and describe each component and how they interact in achieving project goals
Method of Delivery	How will activities be implemented? Describe the tools, methods, or channels. Identify the sequence and timing of activities.
Offices/Units Involved	Which units will lead and support implementation?

Project Description

Example

Beneficiaries	100 small-vessel operators, including 30 women, in Bataan.
Components	3-day maritime safety training, simulation exercises, provision of life jackets, and emergency response drills.
Method of Delivery	Face-to-face training workshops in coastal barangays, supported by online refresher modules.
Offices/Units Involved	College of Marine Engineering (Lead), PMMA Extension Office, Bataan LGU Disaster Risk Management Unit, student volunteers.

Logical Framework Model

A “LogFrame” is a structured planning and management tool that shows the logical relationship between:

- Inputs
- Activities
- Outputs
- Outcomes
- Impact

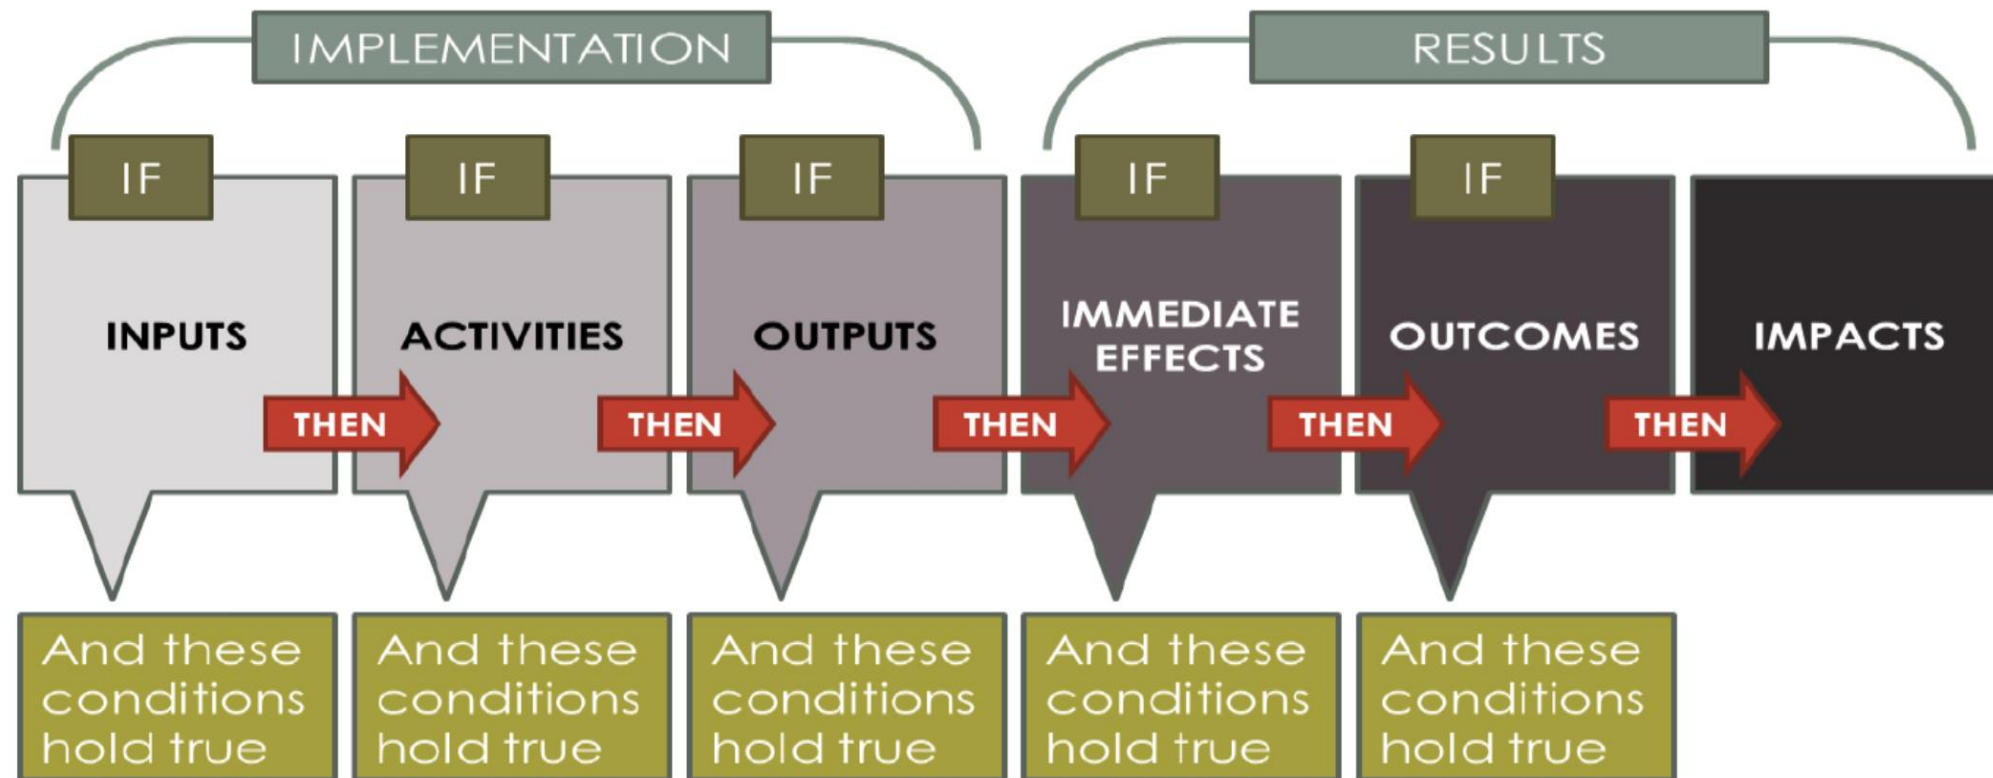

Logical Framework Model

LOGIC - Reasonable; to be expected

MODEL - Representation of reality

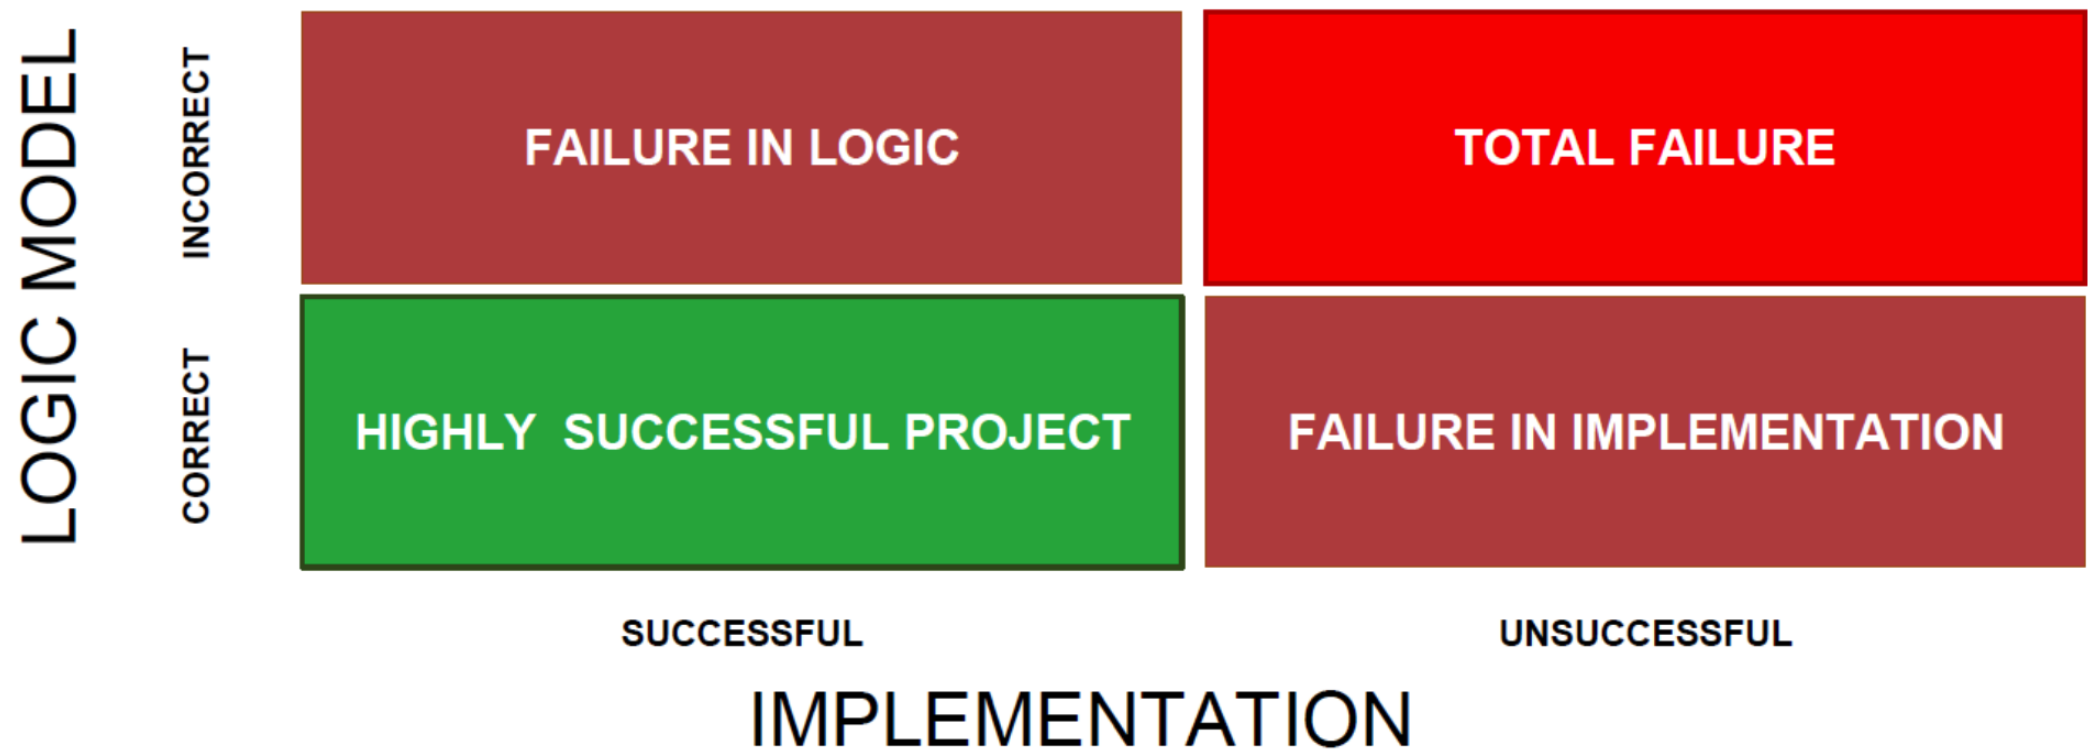

If **X**, then **Y**

Logical Framework Model

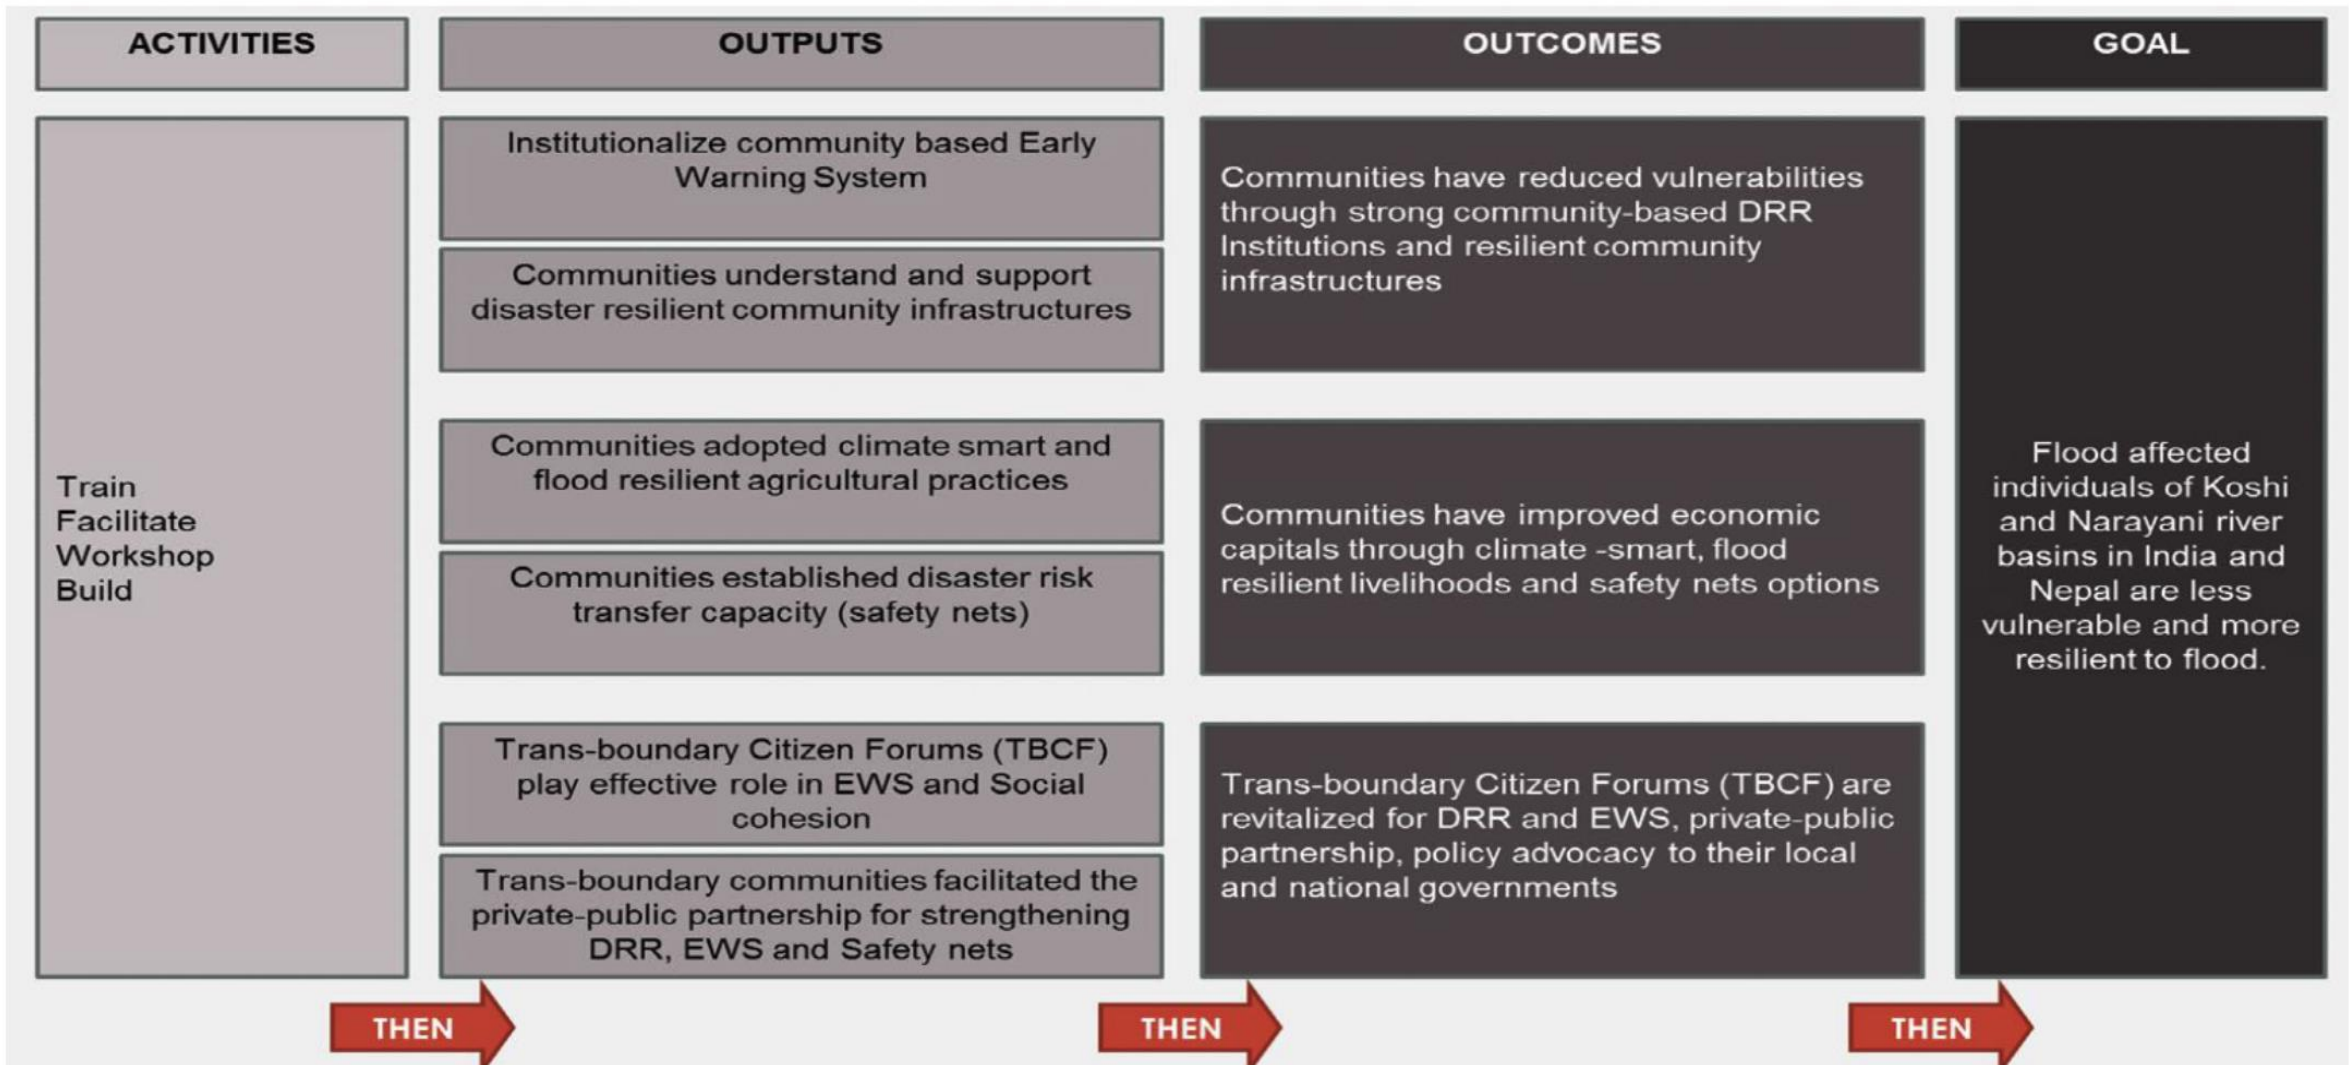

Logical Framework Model

Logic Model and Project Success

Logical Framework Model

Logical Framework Model

Impact	Long-term change	Reduced maritime accidents in coastal barangays
Outcome	Behavioral or institutional change	Increased use of safety protocols among small-vessel operators
Output	Immediate deliverables	5 maritime safety training workshops conducted
Activities	What you do	Training sessions, drills, simulations
Inputs	Resources used	Trainers, materials, budget, venue

Independent Means of Verification (MOV)

EXAMPLES OF INDEPENDENT MOV:

Indicator: % of trained small-vessel operators applying safety checklist

Weak MOV: Self-report survey conducted by training team

Strong MOV:

1. Barangay maritime incident reports
2. Coast guard records
3. LGU safety compliance monitoring logs
4. On-site validation visit reports

Risk Management

Probability x Impact

- **Probability** – likelihood that the risk will occur (Low, Medium, High)
- **Impact** – severity of consequence if it occurs (Low, Medium, High)

High Probability	High Impact	Critical Risk
High Probability	Low Impact	Manageable Risk
Low Probability	High Impact	Contingency Planning Required

Risk Management

Sample Risk Assessment

Risk	Probability	Impact	Mitigation
Low participant turnout	Medium	High	Early coordination with barangay
Typhoon during training	High	Medium	Hybrid delivery option
Faculty overload	High	High	Assign co-facilitator

Risk Management

Risk Management Strategies

RM Startegy	Action	Examples
Risk Avoidance	Eliminate the risk entirely	Schedule activities outside typhoon season
Risk Reduction (Mitigation)	Reduce probability or impact	Confirm attendance one week before activity
Risk Transfer	Shift responsibility to another entity	Formal MOA with LGU for venue security and mobilization
Risk Acceptance	Acknowledge the risk but prepare a contingency plan	Allow buffer days for weather disruption

Risk Management

Risk Management Strategies

Risk Category	Specific Risk	Probability	Impact	RM Strategy	Responsible
Environmental	Typhoon	High	High	Hybrid delivery and backup schedule	Extension office
Social	Low women participation	Medium	High	Gender- sensitive scheduling	Project team
Financial	Procurement delay	Medium	Medium	Early procurement planning	Admin office
Institutional	Faculty overload	High	High	Assign assistant facilitators	Department head

Budget Preparation

A well-prepared budget translates your **Community Needs Assessment (CAN) findings** → **Project Objectives** → **Logframe indicators** → **Risk Management strategies** into **financial terms**.

Budgeting is not merely accounting. It is a strategic alignment exercise that ensures:

- Resources support identified community needs
- Activities directly contribute to SMART objectives
- Outputs and outcomes in the logframe are adequately funded
- Risks identified earlier are financially anticipated

Budget Preparation

A well-prepared budget translates your **Community Needs Assessment (CAN) findings** → **Project Objectives** → **Logframe indicators** → **Risk Management strategies** into **financial terms**.

Budgeting is not merely accounting. It is a strategic alignment exercise that ensures:

- Resources support identified community needs
- Activities directly contribute to SMART objectives
- Outputs and outcomes in the logframe are adequately funded
- Risks identified earlier are financially anticipated

Budget Preparation

Best Practice:

1. Cost Realistically

Avoid:

- Underbudgeting (leads to delays)
- Overbudgeting (raises audit issues)

Use:

- Previous project costs
- Market-based estimates
- Procurement guidelines

Budget Preparation

Best Practice:

2. Ensure internal consistency

Check:

- Objectives match activities
- Activities match budget items
- Budget matches activity timeline
- WFP matches

Budget Preparation

Best Practice:

2. Integrate GEDSI

Check:

- Participation of women
- Accessibility
- Inclusion of marginalized sectors
- Safe spaces for training

Budget Preparation

Best Practice:

4. Anticipate contingencies

Set aside:

- Emergency adjustment
- Minor price increase
- Hybrid delivery cost

TIMELINE OF ACTIVITIES

TIMELINE

Tentative Dates *(subject to change)*

Date	Activity
March 31, 2026 April 7, 2026 April 14, 2026 April 21, 2026	Orientation Workshop with DROs and Proponents re 2026 Innovation Grants
March 17 to May 5, 2026	Call for Proposals for the 2025 Innovation Grants (NGAs, LGUs, SUCs, and GOCCs)
May to June 2026	Technical Evaluation of Proposals
July 2026	Deliberation and Approval of Shortlisted Proposals by the NIC Executive Technical Board
July to August 2026	Terms Negotiation and Preparation of Documentary Requirements with Grant Recipients
August to September 2026	Fund Transfer
October 2026	Commencement of Implementation
