

DAVAO DEL NORTE  
STATE COLLEGE

# STRATEGIC DEVELOPMENT PLAN

2025-2029

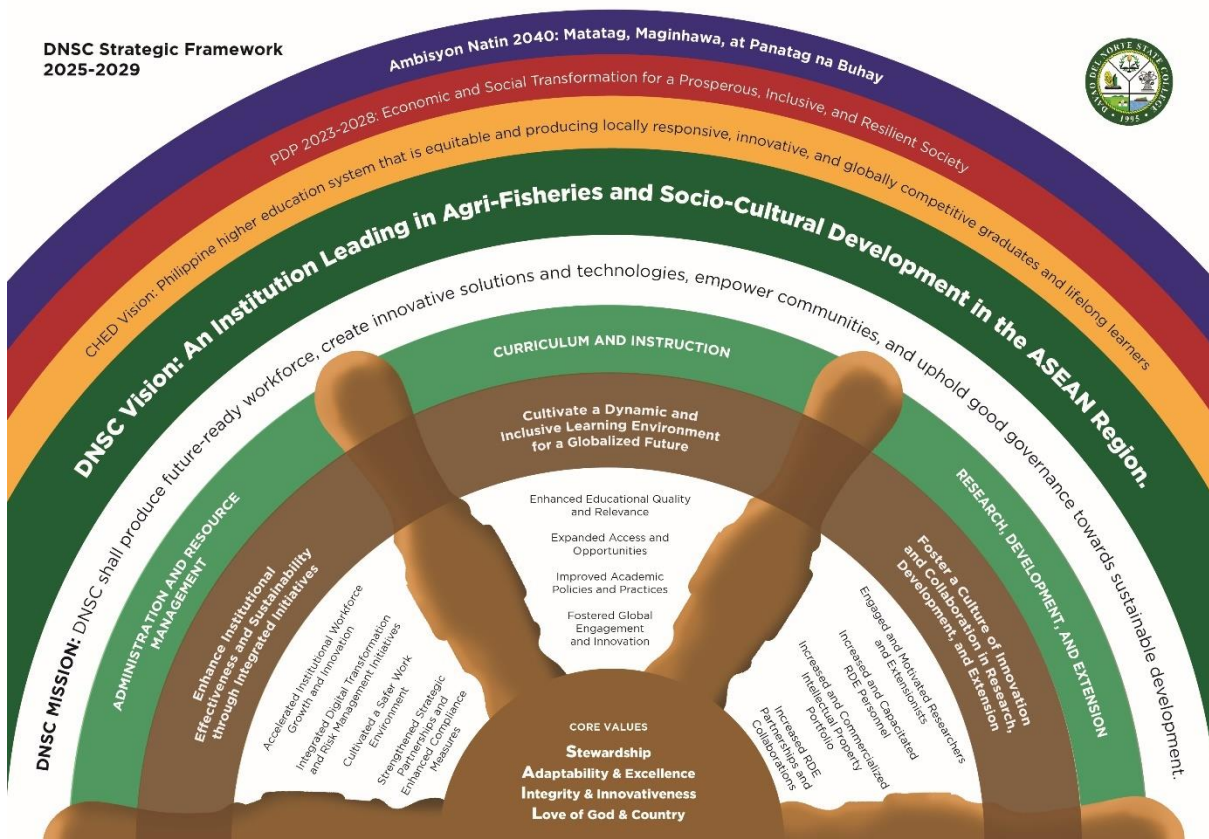

Inspiring Change, Creating Futures

## IV. STRATEGIC FRAMEWORK

The strategic framework of the College for 2025-2029 is contributory towards the achievement of the aspirations of the Filipino People for themselves or the Ambisyon Natin 2040, which is to have a “Matatag, Maginhawa at Panatag na Buhay” or a strongly rooted, comfortable, and secure life. It also aims to contribute and take part in achieving the current administration's Philippine Development Plan (PDP), including the Davao Region Development Plan (DRDP), and other national and regional development plans and agenda in consonance with the PDP. Lastly, as a higher education institution, the framework also considers the attainment of the vision of the Commission on Higher Education (CHED), which is to have a “Philippine higher education system that is equitable and producing locally responsive, innovative, and globally competitive graduates and lifelong learners”.

Using those general aspirations as a springboard, the College then formulated its Vision and Mission statements, and crafted its strategic goals and outcomes, and updated its core values through its three major enablers: (a) Curriculum and Instruction, (b) Research, Development, and Extension, and (c) Administration and Resource Management.

The DNSC Strategic Framework depicts a ship's wheel driving towards various horizons. The immediate green and white horizons are the vision and mission of the institution, which the College hope to reach by the year 2029. Metrics relative to its attainment is

based on the identified strategic outcomes and Key Performance Indicators as stipulated in this Plan. Meanwhile, the subsequent horizons: yellow (CHED Vision), red (PDP and DRDP), and blue (Ambisyon Natin 2040) are the national plans and agenda, which the College aims to contribute towards upon the attainment of the goals and objectives of this Plan.

Meanwhile, the felloe or the outer rim of the wheel, to which the spokes are fixed, are the main strategic goals of the three major enablers, which would be contributory to the overall vision and mission of the institution, viz:

- 1. Curriculum and Instruction:** To Cultivate a Dynamic and Inclusive Learning Environment for a Globalized Future
- 2. Research, Development, and Extension:** To Foster a Culture of Innovation and Collaboration in Research, Development, and Extension
- 3. Administration and Resource Management:** To Enhance Institutional Effectiveness and Sustainability through Integrated Initiatives

In the windows between each spoke of the wheel, are the identified strategic outcomes in support to the above-mentioned goals. The strategic outcomes also function as the Key Performance Indicators (KPIs) of the enablers; and each KPI has corresponding target indicators in this Plan, which would serve as the Key Result Areas (KRAs).

Lastly, in the center of the wheel, also known as the spindle, are the Core Values of the College which spells the word **SAIL: Stewardship, Adaptability and Excellence, Integrity and Innovativeness, and Love of God and Country**. These core values will be the central character or mark of the DNSC students, graduates, and workforce that would steer the College towards achieving our aspired horizons and futures.

## **A. VISION STATEMENT**

**"An institution leading in agri-fisheries and  
socio-cultural development in the ASEAN region"**

The Davao del Norte State College aspires to become a higher education institution which would lead the futures of Agri-Fisheries and Sociocultural Development, with Technological Advancement as the third supporting niche; first in the Davao Region, then in the national stage, and forward towards the ASEAN Region - and beyond. Covering a five-year period, this vision will initially focus on strengthening the implementation of the foundational aspects of our mandate and upgrading the status of the College by first becoming a University. The initial strengthening and preparatory stages of becoming a university will be the first phase of implementation.

After brandishing our goal of becoming a University and ensuring that our vessel is already equipped with the standards of quality and excellence, the College will now start sailing towards greater horizons; aligning our strategic directions in the national

aspirations and development plans, thereby contributing along the way to the regional and national development goals and agenda. Sailing towards the regional and national seas will be the second phase of the implementation.

DNSC, soon to be Davao del Norte State University, will also make a mark in the national and international stage as it aims to be part of the relevant national and international rankings, while ensuring utmost compliance with the highest standards of quality and excellence, enforced by the Commission on Higher Education (CHED), International Standards for Organization (ISO), and other local, national, and international accrediting bodies. The third phase of implementation will focus on sailing towards the global and international waters.

Lastly, our aspiration in becoming a “leading” institution will focus on the futures of these three (3) niche areas: Agri-Fisheries, Sociocultural Development, and Technological Advancement. Using the lens of the main functions of the College we aim to “lead” on the following areas: (a) for Curriculum and Instruction: the achievement of a status of a Center of Development (COD) and/or Center of Excellence (COE) of our program offerings related to those niche areas; (b) for Research, Development, and Extension: to develop and fully operationalize our Research Centers unique to DNSC to contribute towards the achievement of sustainable development goals, empowering communities, and paving the futures for research and development of our identified niche areas; and for (c) Administration and Resource Management: to spearhead in the development of in-house systems for operational efficacy and efficiency, towards attaining a higher HRM-PRIME level and SUC level status among SUCs in the Region, inclusion of DNSC to the PQA awardees - and other relevant national and international rankings.

## **B. MISSION STATEMENT**

**“DNSC shall produce future-ready workforce, create Innovative solutions and technologies, empower communities, and uphold good governance towards sustainable development”**

The College’s mission is aligned with our mandate, as stipulated in our Charter (RA 7879), which is to “primarily provide higher professional, technical, and special instructions for special purposes and promote research and extension services, advanced studies and progressive leadership in education, engineering, arts, sciences, fisheries, and other fields as may be relevant.”

As a higher education institution, it is imperative that we produce graduates who are future-ready and adaptive to the changing environments and in a Disrupted, Volatile, Uncertain, Complex, Ambiguous, and Diverse (DVUCAD) world. They are expected to be adept with the needed learning skills of the 21st Century, particularly on the 4Cs (critical thinking, creativity, communication, and collaboration).

DNSC will also generate innovative solutions, through research-based approaches, and develop a well-rounded RDE agenda in consonance with the vision of the College. Outputs generated will then be used to provide innovative solutions and technologies

that would be beneficial towards nation-building and empower the communities in the region and beyond. Research, Development, and Extension services will also be directed towards the attainment of the Sustainable Development Goals (SDGs).

Lastly, in terms of our support services and administration, the College will uphold with the highest standards the principles of good governance and employ with integrity and transparency the essential characteristics expected of a public government institution, by submitting to the international rankings and relevant accrediting and regulatory bodies.

In support to DNSC's vision, it is the mission and commitment of the college to produce a future-ready workforce, create innovative solutions and technologies, empower communities, and uphold good governance towards sustainable development.

### **C. GOALS, STRATEGIC OUTCOMES, AND STRATEGIES**

In support of the Vision and Mission of the College, these are the Sectoral Goals and Strategic Outcomes of the three major enablers:

#### **GOAL 1 - Curriculum and Instruction:**

##### **Cultivate a Dynamic and Inclusive Learning Environment for a Globalized Future**

##### **Strategic Outcomes and Strategies:**

###### ***a. Enhanced Educational Quality and Relevance***

1. Expand and align academic programs and conduct regular curriculum reviews responsive to current educational trends, industry demands, and global standards
2. Increase scientific productivity among students
3. Increase academic-related resources and facilities
4. Increase percentage of graduation rate
5. Increase number of programs with COPC
6. Conduct intensive licensure exam review to all board programs
7. Increase the number of Instructional Materials
8. Increase number of faculty with doctorate degrees

###### ***b. Expanded Access and Opportunities***

1. Increase student support services and facilities
2. Increase enrollment in the undergraduate and graduate programs
3. Develop additional graduate programs
4. Develop Non-conventional Academic Programs
5. Increase enrollment of deserving equity target groups
6. Hire additional administrative plantilla personnel for institutes and academic offices

###### ***c. Improved Academic Policies and Practices***

1. Revise Academic Policies responsive to current educational trends
2. Develop and implement academic information systems

**d. Fostered Global Engagement and Innovation**

1. Increase faculty and students' mobility

**GOAL 2 - Research, Development, and Extension:  
Foster a Culture of Innovation and Collaboration  
in Research, Development, and Extension**

**Strategic Outcomes and Strategies:**

**a. Engaged and Motivated Researchers and Extensionists**

1. Revisit and Implement Recognitions and Reward Systems
2. Establish Mentorship programs for budding researchers
3. Organize seminars, workshops, and conferences to promote knowledge sharing and networking
4. Revise the Policy on R&D Loading and Support to RDE productivity

**b. Increased and Capacitated RDE Personnel**

1. Invest in the Protection and Licensing of IPs
2. Establish Technology Transfer Office (TTO) to Manage IP Rights and Commercialization Efforts
3. Develop marketing strategies to promote IP to potential partners

**c. Increased and Commercialized Intellectual Property Portfolio**

1. Support programs for Advanced education and Training in relevant fields
2. Support attendance to strategic conference, workshops, and seminars
3. Attract adjunct researchers, extensionists, and other experts
4. Hire targeted highly qualified RDE Personnel

**d. Increased RDE Partnerships and Collaborations**

1. Organize networking events and fora to facilitate knowledge-exchange and collaboration
2. Develop joint proposals for RDE grants and projects

**GOAL 3 - Administration and Resource Management:  
Enhance Institutional Effectiveness and Sustainability  
through Integrated Initiatives**

**Strategic Outcomes and Strategies:**

**a. Integrated Digital Transformation and Risk Management Initiatives**

1. Implement comprehensive digital transformation initiatives to optimize operational efficiency
2. Enhance operational resilience and continuity through comprehensive risk management strategies

**b. Accelerated Institutional Workforce Growth and Innovation**

1. Enhance workforce and knowledge development through collaborative training and education initiatives
2. Implement cost saving initiatives to promote sustainability

3. Implement revenue generation strategies through knowledge enhancement initiatives

***c. Strengthened Strategic Partnerships and Enhanced Compliance Measures***

1. Forge strategic partnerships to streamline operations and enhance accountability
2. Enhance compliance measures and accountability to uphold organizational integrity

***d. Cultivated a Safer Work Environment***

1. Cultivate a safer work environment through enhanced stakeholder relations, safety protocols, and comprehensive training programs

**D. CORE VALUES**

In support of the Vision and Mission of the College, the students, graduates, faculty, and staff of the institution are expected to have the following Core Values embedded in their system and character in order to effectively steer the College into its aspired futures.

**Stewardship**

Stewardship represents the responsible management and protection of the institution's resources, including its environment, finances, and human capital. This value emphasizes sustainability, ethical governance, and the thoughtful use of resources to ensure they are preserved and improved for future generations.

**Adaptability and Excellence**

Adaptability and Excellence signifies DNSC's dedication to progress, growth, and continuous improvement despite the changing conditions and challenges. This value signifies the pursuit of excellence by staying at the forefront of education, research, innovation, and extension. This value is not just about being excellent in everything we do but being able to continuously improve and excel despite changing environments as we sail to our vision, mission, and goals.

**Integrity and Innovativeness**

Integrity stands for the DNSC's unwavering commitment to honesty, transparency, and ethical behavior. It is the foundation of trust, ensuring that all actions and decisions are guided by strong moral principles. Innovativeness complements integrity by fostering creativity, originality, and the willingness to explore new ideas. This encourages DNSC to think outside the box, develop new solutions, and embrace change.

**Love of God and Country**

Love of God and Country embodies a deep commitment to spiritual values, patriotism, and civic responsibility. This value reflects the DNSC's respect for faith, moral principles, and devotion to the nation's well-being. It fosters a sense of belonging, pride in national heritage, and a commitment to serving both the community and the country. This value inspires members of the College to act with compassion, respect, and dedication, guided by the broader ideals of spiritual and civic duty.

## **E. TAGLINE**

### **"Inspiring Change, Creating Futures"**

The tagline "Inspiring Change, Creating Futures" embodies the DNSC's dedication to driving innovation and cultivating a future-ready mindset. Rooted in the principles of futures thinking, it reflects the institution's mission to empower individuals and communities to not only adapt to change but to actively shape it. DNSC will foster creativity, resilience, and forward thinking to our students, faculty and staff, and stakeholders with the tools to anticipate challenges and seize opportunities in an increasingly complex world. This visionary approach ensures that the college is not just preparing its community for the futures ahead, but inspiring them to create it, paving the way for lasting impact and a brighter, more sustainable tomorrow.
